Seattle, WA | Open to Relocate | (603) 866-0043 | princecyama@gmail.com | linkedin.com/in/Prince-Chinyama

EDUCATION

University of New Hampshire, Peter T. Paul College of Business and Economics
Master of Science in Business Analytics | GPA: 3.91

Durham, NH
2026

Rhodes University

Bachelor of Science in Information Systems & Mathematical Statistics

South Africa
2014 - 2018

EXPERIENCE

Xcelerate Enterprises

Data Analyst Intern

Remote, USA

Nov 2025 - Apr 2026

- Analyzed operational, project, quality, logistics, asset-utilization, and customer data across 6 business areas, identifying recurring performance issues and reporting anomalies used to support client recommendations.
- Built Power BI dashboards and SQL reporting for executive updates, issue tracking, budget monitoring, and forecasting; automated recurring data preparation and consolidation workflows with Excel Power Query.
- Partnered with clients and internal teams to define reporting requirements, investigate data discrepancies, validate outputs, and translate technical findings into recommendations for nontechnical stakeholders.
- Performed structured QA and AI-assisted validation to identify missing values, duplicate records, inconsistent fields, and reporting anomalies, manually reviewing flagged exceptions before client-facing analysis was finalized.

P2B Projects

Junior Data Analyst

Johannesburg, South Africa

Oct 2024 - Jun 2025

- Built analysis-ready reporting datasets across 6 operational domains using SQL and Excel Power Query, cleaning, transforming, and reconciling project, inspection, equipment, logistics, delivery, and customer records.
- Developed Power BI, Excel, and SQL reports tracking project status, budgets, logistics, open issues, quality trends, and forecasts to support planning and operational decisions.
- Performed trend and root-cause analysis across 3 core performance areas - quality, delivery, and cost - to identify recurring operational issues, emerging risks, and process-improvement opportunities.
- Standardized KPI definitions, documented reporting workflows, validated data accuracy, and translated analytical findings into concise management recommendations.

Walter Sisulu University

Data Analytics Research Assistant

East London, South Africa

Sep 2020 - Mar 2022

- Prepared multi-cycle survey datasets for statistical analysis by resolving missing values, inconsistent responses, and formatting errors; maintained reproducible QA documentation supporting faculty research and reporting.

PROJECTS

Women's Tennis Analytics

- Designed a normalized 6-table AWS Aurora database for multi-year WTA data, wrote SQL joins, aggregations, views, and reporting queries, and produced 7 analytical charts identifying ages 24-26 as the strongest performance window.

SQL | AWS Aurora | R

Diabetes Risk Classification

- Built and evaluated 5 classification models across 253,680 CDC survey records; achieved 0.79 Random Forest AUC and 49.4% at-risk recall while evaluating thresholds around the cost of false negatives.

R | Machine Learning

Content Strategy Analytics

- Cleaned and integrated 1.4M+ critic reviews, applied sentiment analysis and regression, and produced 7 business-focused visualizations translating content-performance patterns into strategic recommendations.

R | NLP | Visualization

TECHNICAL SKILLS

Data & BI: SQL, Excel, Power Query, Power BI, Tableau, KPI reporting, dashboard development, data quality, ETL, reporting automation
Programming & Analytics: Python, R, pandas, NumPy, scikit-learn, MySQL, AWS Aurora, statistical analysis, forecasting, root-cause analysis
Business & Delivery: Requirements gathering, UAT, stakeholder reporting, data validation, process documentation, management recommendations
